Xgenplus Admin Panel

Android App

Now Domain Administrator can access Admin panel features through Android Application

After login system will ask for pin that will set for every time login

User needs to reconfirm the Pin $\begin{array}{c|c}
1 & 2 & 3 \\
\hline
4 & 5 & 6 \\
\hline
7 & 8 & 9 \\
\hline
0 & \checkmark
\end{array}$

Confirm Pin

... 🛜 ...l Volte ...l

11:29

After pin confirmation Domain admin will redirect over next screen, through which admin can search specific user

Select Setting < ram@dil.in $\phi \phi \phi$ Ē O \bigcirc \overline{Q} \underline{O}

11:30

Once user will

be searched,
